The Tippit murder

In Cb194, where it appears to be on Oswald's literature distribution, is an FBI report saying that Jimmy Earl (what coincidence!) Burt, of Belmont, La., was in Dallas 11-22-63 and about 50-60 yards away from the Tippit killing. He saw a white male, pistol in hand, running away.

There is remarkably little ~~xxxx~~ by way of description, which is consistent with the total lack of Commission interest.
